① PROFILE

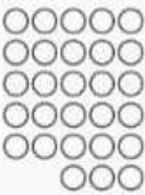

Enthusiastic and meticulous Software Engineering Intern, poised to leverage a decade of experience as a Financial Analyst, now shifting gears to contribute maximization strategies to Bank of Brocelle's software projects. Excited to immerse in monitoring, maintaining, and enhancing billing systems and reconciliations for clients. Keen interest in crafting innovative solutions to engage the millennial demographic and contribute insights to software applications geared towards retirement and financial planning

Highly organized and communicative individual with a proven track record of successfully organizing events and attending workshops. Eager to leverage strong communication skills and event management experience to contribute effectively to a dynamic team environment.

- Planned and executed multiple events, including conferences, seminars, and networking gatherings.
- Coordinated logistics, such as venue selection, catering, and equipment setup, ensuring smooth event operations.
- Managed communication with vendors, sponsors, and attendees, ensuring high levels of satisfaction.
- Handled event marketing and promotion, resulting in increased attendance and engagement.
